

6 Ways to Save on Pet Costs

1. Shop around for pet food

Don't assume that feeding your furry friend has to cost a fortune. Shop around for pet food to find the best price – and don't forget your coupons!

2. Create your own pet beds and furniture

Instead of blowing big bucks on specialized pet beds and furniture, make our own cozy spaces with easy DIY projects.

3. Compare pet insurance plans

Don't settle on a pet insurance plan without comparing. Consider premiums, copays, payment caps and deductibles. Then, find out if the following costs are covered: physical exams, pre-existing issues, vet and animal hospital visits and prescription drugs. It may – or may not – be worth the cost in the long run.

4. Keep your pet fit

It's cheaper to keep a healthier pet than to pay for medical care. Make sure your pet gets enough movement and eats well.

5. Invest in a grooming kit

Enjoy ongoing savings by investing in a grooming kit for your pet instead of shelling out money for an overpriced groomer.

6. Make your own pet treats

Find recipes online for DIY pet treats and skip the sticker shock on store-bought indulgences for your four-legged friend.
